The undersigned hereby requests a variance from the terms of Article _____,
Section _____, and asks that said terms be waived to permit the following:

To do so, the undersigned alleges that the following legal criteria for granting a variance are satisfied, and submits the accompanying written statement, records, photographs, and other materials to justify the granting of the variance and to explain how each of the criteria for the variance is or will be satisfied.

1. Authorization of a variance will not diminish the value of surrounding properties because:
(describe why the variance will not affect property values in the area)

2. The authorization of a variance will not be contrary to the public interest because: (explain why no harm to the public interest will be created by the variance)

3. Authorization of a variance will result in substantial justice because: (describe why the variance will create no harm for other property owners or permissible uses)

4. The granting of a variance will not be contrary to the spirit and intent of the Ordinance because: (explain why granting of the variance is not in conflict with the permissible uses of the land and the goals of the zoning ordinance as defined by RSA 674:17) See attached RSA table.

APPLICATION FOR APPEAL: VARIANCE

A. Owing to special conditions of the property that distinguish it from other properties in the area, denial of the variance would result in unnecessary hardship to the owner because:

a. The proposed use is a reasonable one because:

b. No fair and substantial relationship exists between the general public purposes of the ordinance provision and the specific application of that provision to the property because:

B. Explain how, if the criteria in subparagraph (A) are not established, an unnecessary hardship will be deemed to exist if, and only if, owing to special conditions of the property that distinguish it from other properties in the area, the property cannot be reasonable used in strict conformance with the ordinance, an a variance is therefore necessary to enable a reasonable use of it.
